 I Run This Zoo

★★★★★ Very nice quality and easy to use

Reviewed in the United States on September 18, 2019

Verified Purchase

The T851 Offroad seems to be a great board so far. It is well built and looks very nice. There are a few different safety features, but I really like being able to adjust the speed limit while learning. It's also pretty neat that the LEDs act as turn signals, that's a nice touch.

It has been very easy for my 13, 11, and 9 year old to use. After a couple of minutes you would think they are pros.

The offroad capabilities are very nice. My son has been driving through the yard both up and down hills and the grass & dirt don't seem to be any problem.

We were very surprised with the bluetooth speaker. It has a very nice rich sound to it and seems just as good of quality as the board itself.

The battery life and charging times seem to be right on par with what is promised. An hour and a half to [▼ Read more](#)

★★★★★ Off-road capable

Reviewed in the United States on September 23, 2019

Verified Purchase

I am surprised how well this works off-road. My Gyo soon loves cruising all over the driveway as well as dirt trails around the house. He even rode around at a local park where the grass was very bumpy with gophers.

The app could use some work

★★★★★ Good but not 10mph

Reviewed in the United States on December 25, 2019

Verified Purchase

They are great but the info on amazon is incorrect. It says 10mph max speed. The manual that comes with it clearly states 7.5mph. That needs to be fixed. That is the main reason I bought this brand was for the speed as they are used for carts. They are slower than our other boards that have a max speed of 7.5.

★★★★★ Powerful Off-road wheels are AWESOME!

Reviewed in the United States on May 7, 2020

Verified Purchase

I got 2 of these for my 2 boys - knowing they are typical boys who are active and hard on their toys. The hoverboard met and exceeded all our expectations. The app was easy to install and setup was a piece of cake. The 2 modes are useful - child mode and advanced mode...my youngest 7-year old took some time to get used to the speed and control in child mode - before moving up to the advanced mode, with higher speed. The LED lights were a big hit, especially as they could customize their own color. And of course having music playing out the hoverboard speaker was the cherry on top! The offroad wheels are where this hoverboard really shines - along with the strong wheel motors - the offer the biggest advantage over other hoverboards. This allows the wheels to grip and climb pavements and easily traverse grass lawns - and believe me when I say that my boys have thoroughly put them to the test! Compared to previous hoverboard experiences - the battery lasts longer, even when driven hard! All in all, the hoverboard experience is so much better with this product and I highly recommend it - I'm planning on getting one for myself - after all I'm just a big kid in a grownup body!

★★★★★ 5 star Hoverboard !

Reviewed in the United States on December 16, 2019

Verified Purchase

After a long research I'm very pleased with the choice of hoverboard:
Very stable (self balancing mode)
Useful app (you can control the speed and adult mode or children)
Great speakers
Strong lights (Important when it's dark outside)
Fun to ride

★★★★★ Awesome hoverboard, highly worth investing into!

Reviewed in the United States on March 29, 2020

Verified Purchase

Purchased this for my 8 yr old daughters birthday and am pretty happy with the investment. I bought and returned a couple of different hoverboards before settling on this one because I wanted a good battery life and something adults can ride on as well as kids. This is such an awesome hoverboard, great battery life and it does very well on different terrains. customer service was really quick with responses too. overall extremely happy with the purchase and would highly recommend.

★★★★★ Charging problems. Now won't turn on.

Reviewed in the United States on November 8, 2020

Verified Purchase

My son was so excited to receive this board. I didn't want to buy a cheap one and thought that if we paid \$230 we would get a quality product. My son really likes it, but it is having problems. He would charge it and the charging light wouldn't turn on. So then we would take it to a park and it would run out of battery right away. Today he took it out to a park and now it won't even turn on.

Reading other reviews I am worried that we won't even hear back from the company when we e-mail them. It also looks like we will have to ship it back at our own cost if we want it fixed or replaced. We didn't even keep the box, so I don't know how we are going to manage that and how much it will cost.

I'm so disappointed that this product isn't working after only 3 weeks of use.
